(ON THE PUBLIC SQUARE,)
FORT WAYNE, INDIANA.

LYSANDER WILLIAMS informs his friends
and the traveling community that he has
taken the above well known and commodious
house, and is now prepared to entertain guests.
Neither pains nor expense will be spared to make
this a comfortable abode for the stranger, and
to give satisfaction to all who may call. His
Table and Chair will always be furnished with the
best the country affords, and every exertion used
to promote and ensure the comfort and accommoda-
tion of his guests. As his charges will be moderate,
he hopes to receive a share of the patronage
of a liberal and discerning public.

To the People of Allen County.
THOSE who are acquainted with the super-
ior qualities of "LEW DAVID'S OR HEBREW
PLASTER" and the "PERSIAN PILLS"
will doubtless be glad to learn that Dr. L. BEECHER
of Fort Wayne has just received another fresh
supply. The immense quantities sold throughout
the west alone, superseded the necessity of
paying one-half import duty at the custom house.
You will doubtless be incredulous. See
Daughter of affliction who has been suffering
with Lambe Back, Rheumatism, Oppressive Pain
in the Breast or side, or with Tumors, Tumors,
Kings Evil, &c. (for either of which the PLAS-
TER is known to be a sure antidote) or with
Liver Affections, Dyspepsia, Fever and Azae,
Chill Fever, Scrofula, or any of the diseases
prevailing in the Wabash Country, especially when
as originate in an impurity of the blood and cir-
culating fluids, with the PERSIAN PILLS
most speedily to remove; for the Benefit of
such we can give a few extracts of letters, show-
ing the estimate in which these medicines are
held where known.

Crawfordsville, Ia. Jan. 27th 1845.

Mrs. D. Harter & Co. Gents.—I have sold
you all my large stock of the just cele-
brated "HEBREW PLASTER" and the "PERSIAN
PILLS" you furnished me three weeks since,
and it would be well to keep me well supplied
as I find calls for the medicine increasing
daily.

I would here state, that I have no articles
in My Drug Store that gives better satisfaction
than the "HEBREW PLASTER" and "PERSIAN
PILLS".

Noah S. THOMPSON.

Washington, Ia. Aug. 3d, 1845.

Mrs. D. Harter & Co. Gents.—At the request
of many, who are anxiously awaiting the
new supply of your celebrated "Hebrew Plaster
and Persian Pills," we write you the sec-
ond notice that we are now ready to have
a frequent call for both Plaster and Pills, which
we hope will be well supplied as I find calls for the medicine increasing
daily.

We have here state, that I have no articles
in My Drug Store that gives better satisfaction
than the "HEBREW PLASTER" and "PERSIAN
PILLS".

Boy 14 to 16 years of age wanted at this office immediately, as an apprentice to the Printing Business.

FORT WAYNE SENTINEL.

SATURDAY, SEPTEMBER 13, 1845.

State Convention.—No call has yet been made by the Democratic Central Committee for holding a State Convention; but as we will have to hold the ensuing winter, most probably on the 8th January, for the purpose of nominating candidates for Governor and Lieut. Governor, it will be necessary to hold county conventions to appoint delegates. Our county central committee had better attend to this in time, and we hope the township committees will see that every township is represented. These conventions ought to be a fair representation of the views of the people, and will be so, if the people will attend to it, and take sufficient interest in the matter.

We hear no one spoken of as candidates except the present incumbents, and if they are willing to serve another term, should judge they would be unanimously re-nominated. We know of no nomination which would be more in accordance with the wishes of our friends; though all are willing to acquiesce in the decision of the convention, and yield a hearty support to the nominees.

United States Senator.—By an article from the Goshen Democrat, in another column, it will be seen that that journal cordially seconds our nomination of Hon. E. M. Chamberlain as a candidate for United States Senator from this State. When we made the nomination we were tally unacquainted with Mr. Chamberlain's own views and feelings in the matter; and we therefore pleased to see that though it is an elevation to which he had not aspired, yet he considers it a honor which ought not to be declined on slight considerations. He may therefore be looked on as the candidate of Northern Indiana—a portion of the State which has hitherto been entirely overlooked in the distribution of the honors and emoluments of office, both state and national—for the honorable duty of representing the State in the Senate chamber of the Union. In pressing the claims of the North on this occasion, we do not wish to create any sectional jealousies, or dissension in our ranks, nor to throw any difficulties in the way of those whose duty it will be to make the election; neither do we believe that any of Mr. Chamberlain's friends do,—and he himself is satisfied would be the last man to desire or accept a seat obtained by such means. All we desire is that the claims of our candidate may receive a fair consideration, and that no petty intrigues of trading politicians be allowed to force a Senator on us in whom we cannot repose the most implicit confidence. With the decision of a legislative caucus, acting in a spirit of fairness, impartiality and concord, we shall be perfectly satisfied, and we trust the nominee of such a caucus—be it whom he may—will receive the undivided support of the democrats in the Legislature, and be elected on the first ballot. The public sentiment is utterly opposed to the continuance of the trading and trickery which have on former occasions characterized our legislative elections, and the people's representatives would do well to remember on this occasion that they are acting for the good of the people, and not for the gratification of their own preferences, or the forwarding the schemes of ambitious aspirants.

Mysteries of Indianapolis.—The State Sentinel is progressing with the development of the political mysteries of our capital. So far, its attention has been chiefly directed to the "Morrison family" in general, and Alex. F. Morrison in particular. It certainly makes out a very strong case against these worthies, and if we have had many such traitors in the camp, it is a wonder how we have succeeded in regenerating our State; nothing but the indomitable energy and perseverance of the people—the rank and file of our party—could have accomplished such a triumph. We hope the Sentinel will continue its labors, and show up the remainder of the junto of Old Hookers in the same striking colors. They have long been an incubus on our party, and deserve no favor.

The State Sentinel copies our paragraph in which we noticed the appearance of the first No. of "the Mystery," and regretted that our friends of the State Sentinel had not earlier taken such a stand; it also copies a similar notice from the Goshen Democrat, and in reply, explains the motives which actuated it in pursuing the course it did towards the Hookers. It admits "that from the first it was aware of the sinister influence this junto was exercising, and the injury they were doing to the democratic cause; but at that time the whigs being all-powerful in the State—the democrats disengaged and disheartened by the tornado of 1840—it was thought best by the Sentinel to direct all its energies against the common enemy, rather than run the risk of appearing to have dissentions in our ranks. Now the case is different.—We have met the enemy and they are ours—now the time has come to rid the hive of the drones who have so long sat on the honey of the industrious bees, whose labor instead of aiding them have done so much to impede. The Sentinel further laments that the false position in which it was placed should have induced us to misapprehend its real position, and also led it to misconceive ours, and thus aid the selfish schemes of the hookers.

We feel satisfied with the explanations of our friends the Chappmans: they have now seen the danger of even appearing to be under the control of any clique or junto, and will, we make no question, hereafter act like faithful Sentinels, and give the alarm on the first appearance of treason or dissatisfaction in our camp. It is as necessary to guard against internal as external foes.

The TOWNSLEY ESTATE.—It is said there is property valued at four millions sterling, in England, for which heirs are wanting, and that they are supposed to be in the United States. A meeting of those interested has been held in N. Jersey, to take the necessary steps to secure their rights. On this subject the New York Jeffersonian says:—

"THE TOWNSLEY ESTATE.—Our curiosity has been a little excited by some advertisements that have appeared, dictated of course by persons who imagine they have a claim on property in England, owing to the fact that the State, we know nothing of the matter, and are informed our friends on this side of the Atlantic to exercise prudence in the disposition of such funds as they may collect for the purpose of recovering this property."

"It has long been in abeyance, and talent of a peculiar character is required to advise first, and then, in obtaining of the same by really the object."

"We may probably, at our leisure, furnish pedigree of this family, and show who really is the party entitled to it."

So far as we can learn, the proposal of Mr. Morrison to issue a new paper at Indianapolis, professing to be democratic, meets no favor with the democratic press. His honesty is doubted by those who know him, and those who do not have been sufficiently enlightened by the State Sentinel's exposure of his measures, to distrust his motives. The mere fact of his commencing a paper, and calling it democratic, we care but little about; but as friends of Gen. Cass, we must protest against having him sacrificed by having his name paraded at the mast head of so suspicious a craft as the proposed new paper. The General's friends ought, if possible, to prevent this. If they do not his prospects are for ever blighted in Indiana.

Mexico.—We have nothing of much interest from Mexico this week. The Mexican government have ordered their troops to advance and take up a position ten leagues east of the Rio Grande. This, if carried into effect, may cause a collision with our troops, as it would be an invasion of the country claimed by the Texans as part of their territory; but we are doubtful if the Mexican troops will venture to cross, and think it by no means certain that they will ever be able to concentrate a force sufficient to justify such a step. According to the latest authentic accounts we have now nearly 5000 U. S. troops in Texas, besides the Texan militia. This force will be sufficient to hold the Mexicans in check, and will, we think, so far cool the ardor of the heroes by whom they are commanded as to induce them to prefer their own side of the river as the safest and most advantageous position they can take. Should it be otherwise, thousands and tens of thousands of hardy men in the Mississippi valley are ready and anxious to sustain the cause of their country, and would cheerfully take the field on the first news that the Mexicans had dared to place a hostile foot on our soil. The Mexicans would speedily be driven back, and might consider themselves fortunate if they were not pursued beyond the river.

VOLUNTEERS FROM OHIO.—At the encampment of the 1st brigade, 7th division Ohio Militia, in Fairfield county, Ohio, on the 22d, after some suitable remarks by Dr. G. W. Boersterling, the present posture of our affairs with Mexico, the following resolutions were adopted by acclamation:

Resolved, That we hereby, individually and as a Brigade, tender our services to the government of the United States, to serve as volunteer soldiers; through the campaign in the event of war with Mexico, or any other power.

Resolved, That we hold ourselves in readiness at a moment's notice, should a requisition be made upon us for that purpose.

Removal of Deposits.—The Secretary of the Treasury has removed the public deposits from the Bank of Wooster.

Michigan Democratic State Convention.—At a Democratic State Convention held at Jackson, Michigan, on the 27th ult., Alpheus Feltch of Washenaw was nominated candidate for Governor, and Wm. L. Greenly of Lenawee, for Lieut. Governor. Mr. Feltch is a sterling democrat, and has always steadily opposed the swindling banking operations in that state; he is deservedly popular with his party, and will, as a matter of course, be elected.

Breach in the Miami Canal.—Owing to a sudden rise of water, caused by a violent rain storm, a culvert under the canal at Hamlet gave way, carrying with it about 80 feet of the tow path; and at the same time another large culvert about two miles above Hamilton was swept out, with a large amount of embankment. S. Foster, Esq., in a letter to the Collector at Cincinnati, dated the 1st inst., states that he has 100 men employed repairing the damage, and is determined to have boats pass within ten days from that time. He intends placing a temporary trunk or aqueduct across the two mile creek, and rebuilding the culvert at his leisure after navigation is resumed.

Murder of a Sentinel at a Militia Muster.—On the 21st ult., a regiment of militia being mustered for military duty and encampment at Burton, Geauga county, Ohio, a gang of ruffians who have made themselves notorious in that neighborhood, and who style themselves "The Hellfire Insurance Company," disturbed the encampment at night, and attempted to pass the guard. The leader of this gang, a man of bad character, named Nathan Britton, was arrested and tried to a stake. After remaining in confinement some time he was liberated. In a short time he returned with his gang, and renewed the disturbance. The sentinel ordered him not to cross the lines or he would fire; when Britton rushed forward and stabbed the sentinel to the heart, killing him on the spot. The ruffians were immediately arrested and committed to prison.

The deceased was a promising young man, only 23 years of age, of the name of Truman Allen, a resident of Montville, in Geauga co.

Anti-Rent Disturbances.—The Governor of New York has issued a proclamation relating to the late outrages of the Anti-Renters, and declaring Delaware county to be in a state of insurrection.

Three companies of light infantry, consisting of 100 men each, have been ordered into the service of the State, and two regiments of infantry have received orders to hold themselves in readiness to march, if their services should be required.

Upwards of 40 of the "Indians" who were present at the murder of Steele, the deputy Sheriff, have been arrested, 24 of whom are committed for trial, and the remainder discharged. The main body of these misguided men, something like two hundred, it is said, have retreated to Dry Brook, in the town of Shandaken, in Ulster county, where they think they have a strong position, difficult of access, and where, having two field pieces in their possession, they are determined to fight, if attacked. It is said also that they sent out small parties day and night, not only to act as scouts, but to excite the sympathies of, and to solicit provisions in the neighborhood.

Lardner's Lectures.—Messrs. Greeley and McErlan of New York, are publishing in a cheap form Dr. Lardner's celebrated Lectures on Science and Art. They are published semi-monthly, at 25 cents each number. This is one of the best and cheapest publications of the day; a larger amount of sound practical and scientific knowledge may be acquired from these Lectures, than from any other work costing double the price. No. VIII. contains the Dr.'s treatises on Matter and its Physical Properties—Elasticity of Air—The Effects of Lightning—and Popular Fallacies. No. IX. contains lectures on Protection from Lightning—Magnetism—Electro-Magnetism—The Thermometer—Atmospheric Electricity—and Evaporation.

Cash for 20,000 Bushels

OF WHEAT,

At the Empire Mills.

WE are prepared to pay CASH and the HIGHEST PRICE for 20,000 bushels of good merchantable Wheat.

Farmers and Teamsters will save themselves much trouble and expense by driving directly up to the STONE MILLS and uploading; they will always get the highest price, and avoid the annoyance of being pestered by the peddlers and whisperers from the Stores, who now infest our streets and are such a bore to all who bring wheat to our market. We are not to be given to boasting; but as some of our neighbors are talking of wanting 10,000 bushels of wheat, we would inform wheat raisers that we can take in \$20,000; as our Mill, besides being the best, is the biggest, the highest, and the strongest in the country. We have a convenient WAGON-YARD and STABLE, for teams coming to the Mill, and a HOUSE for the Teamsters; we always furnish feed for the horses, and occasionally throw in Supper and Breakfast for their drivers. This is nothing new with us—we have always thought it our duty to do so, and should not now mention it if our neighbors had not set the example.

We keep constantly on hand FLOUR OF THE BEST QUALITY and all kinds of M'ls. Starch; and promptly grind every thing in the shape of Custom Work—always excepting White Oak Tan Bark, or the "face of the Poor."

DAVISON'S
Balsam of Wild Cherry,
THE GREAT AMERICAN REMEDY
For Lung Complaints, and all Affections of
the Respiratory Organs.

A CURE FOR CONSUMPTION!—WISTAR'S
BALM OF WILD CHERRY—Always tri-
umphant!—Cure follow'd Cure! in its onward
Victorious Career!

DAYTON, February 11, 1845.

MA. J. W. WHITMORE—Dear Sir: As you are
the regular authorized agent, in Dayton, for the
use of Dr. Wistar's Balsam of Wild Cherry, I
take this method of making a statement of fact
to you (which I hope may be published to the
world) that in case of the explosion of a cannon
A bullet, or a portion thereof, entered my right side;
but it is probable that some fragments or splinters
of the ramrod passed through the "plastron,"
and pierced the Lungs.

After the lapse of about six weeks, I was at-
tacked with a distressing cough and violent pain
in my right side. Some ten days after this, when
in a paroxysm of coughing, an ulcer broke, and a
large quantity of very offensive matter, mixed
with blood, excreted itself out of the wound,
so as to completely dislodge the bullet.

From this opening there frequently passed a
quantity of air, supposed to issue from the Lungs.
During all this time my suffering were almost
insufferable.

My physicians, meanwhile, paid the strictest
attention to me, and did all in their power for my
recovery. But with their skill, they could
not reach the seat of disease, for the Lungs
had been affected. I was visited during the
time by at least twenty physicians.

It was now reduced to a certainty, that INFLAM-
MATION OF THE LUNGS was rapidly taking place;
and that this would terminate my life in a very
short time, was in the highest degree probable.

At this critical stage, a messenger was des-
patched to Cincinnati, to a celebrated physician
of that place, who, upon arrival, made
a rapid recovery of my situation; and
recommended that nothing could be done by medical aid, but the
attention itself was not sufficient to throw off the
disease.

My friends now despaired of my recovery, and
had no earthly ground of hope to survive many
days. Fortunately, at this juncture, I saw one
of Dr. Wistar's Painted cutters, "Family
Medical Goods," in Wistar's CONFESSIONAL
of the Lungs." And I had often heard of dying
men, "eating at straws," I fit like dying
myself.

By the consent of my physician, I sent
to you for a bottle of the medicine described, viz.:
"Wistar's Balsam of Wild Cherry," which re-
lieved me almost immediately. After I had used
some five or six bottles, I fit recovered as to
be up and about. My cough ceased, and my
long continued pain in the right side, and all trou-
bles, fading, and by far, influence, and powerful
medicinal virtues of Wistar's Balsam.

Were it not for the external injury I received,
in my shoulder and arm by the explosion, I feel
confident that I might have been working at my
trade, (which is blacksmithing,) but this has
prevented.

By exposure, I have since taken several severe
cold, and my mind deeply fatigued by the Balsam.
And I cannot cordially recommend this Balsam
to Wistar's Balsam to all who are afflicted with
colds, cough, and Lung complaints. I consider
it an invaluable medicine—a real blessing to the
world. Any person desiring further information
may call on me at any time. Yours truly,

FORT WAYNE SENTINEL.

SATURDAY, SEPTEMBER 13, 1845.

State Convention.—No call has yet been made by the Democratic Central Committee for holding a State Convention; but as one will have to be held the ensuing winter, most probably on the 8th January, for the purpose of nominating candidates for Governor and Lieutenant Governor, it will be necessary to hold county conventions to appoint delegates. Our county central committee had better attend to this in time, and we hope the township committees will set every township represented. These conventions ought to be a fair representation of the views of the people, and will be so, if the people will attend to it, and take sufficient interest in the matter.

We hear no one spoken of as candidates except the present incumbents, and if they are willing to serve another term, should judge they would be unanimously re-nominated. We know of no nomination which would be more in accordance with the wishes of our friends here; though all are willing to sacrifice in the desire of the convention and yield a hearty support to the nominee.

United States Senator.—By an article from the "Goshen Democrat," in another column, it will be seen that that journal candidly records our nomination of Hon. E. M. Chamberlain as a candidate for United States Senator from this State. When we made the nomination we were really unacquainted with Mr. Chamberlain's own views and feelings in the matter; and are therefore pleased to see that though it is an election to which he had not aspired, yet he considers himself which might not have declined on slight considerations. He may therefore be looked on as the candidate of Northern Indiana, a portion of the State which has hitherto been entirely overlooked in the distribution of the honors and emoluments of office, both state and national—for the honorable duty of representing the State in the Senate Chamber of the Union. In pressing the claim of the North on this occasion, we do not wish to create any sectional jealousies, or suspicion in our ranks, nor to throw any difficulties in the way of those whose duty it will be to make the election; neither do we believe that any of Mr. Chamberlain's friends do,—and he himself we are satisfied would be the last man to desire or accept a seat obtained by such means. All we desire is that the claims of our candidates may receive fair consideration, and that no petty intrigues of trading politicians be allowed to force a Senator on us in whom we cannot repose the most implicit confidence. With the decision of a legislative assembly, acting in a spirit of fairness, impartiality and concord, we shall be perfectly satisfied, and we trust the number of such a cause—be he whom he may—will receive the most decided support of the democrats in the Legislature, and be elected on the first ballot. The public sentiment is utterly opposed to the continuance of the trading and trickery which have for some occasions characterized our Legislative elections, and the people's representatives would do well to remember on this occasion that they are acting for the good of the people, and not for the gratification of their own preferences, or the forwarding of their own ambitions or aggrandizement.

Alma of Indianapolis.—The State Sentinel is progressing with the development of the "Political Mystery" of our capital. So far, its attention has been chiefly directed to the "Mormon family"; in general, and Alex. F. Morrison in particular. It certainly makes out a very strong case against these worthies; and if we have had many such traitors in the camp, it is a wonder how we have succeeded in regenerating our State; nothing but the indefatigable energy and perseverance of the people—the rank and file of our party—could have accomplished such a triumph. We hope the Sentinel will continue its labors, and show up the remains of the party of Old Hawkers in the same sordid role. They have long been an incubus on our party, and deserve no favor.

The State Sentinel copies our paragraph in which we noticed the appearance of the first No. of "the Mystery," and regretted that our friends of the State Sentinel had not earlier called a stand; it also copies a similar notice from the "Goshen Democrat," and in reply, explains the motives which actuated it in publishing the course it did towards the Hawkers. It admits that from the first it was aware of the sinister influence this party were exerting, and the injury they were doing to the democratic cause; but at that time the whigs being all-powerful in the State—the democrats disengaged and disheartened by the tornado of 1840—it was thought best by the Sentinel to direct all its energies against the common enemy, rather than run the risk of appearing to have dissentions in our ranks. Now the case is different.—We have met the enemy and they are ours—now is the time to rid the hives of the drones who have so long fattened on the honey of the industrial bees, whose labor instead of aiding them have done so much to impede. The Sentinel further laments that the false position in which it was placed should have induced us to misappropriate its real position, and also led it to misconceive ours, and thus the selfish schemes of the leaders.

We feel satisfied with the explanations of our friends the Chapmanians; they have now seen the danger of even appearing to be under the control of any clique or junta, and will, we make no question, hereafter act like faithful Sentinels, and give the alarm on the first appearance of treason or disaffection in our camp. It is necessary to guard against internal as external foes.

Townley Estate.—It is said there is a property valued at four millions sterling, in England, for which heirs are wanting, and that they are supposed to be in the United States. A meeting of those interested has been held in New Jersey, to take the necessary steps to secure these rights. On this subject the New York Jeffersonian says:—

"The Townley Estate.—Our curiosity has of late been a little excited by some advertisements that have appeared, destined, of course, by persons who imagined they have a claim on property in England, knowing the Townley Estate. We have written to the agents of the proprietors of our friends on this side of the Atlantic to ascertain the disposition of such claim, as they may collect for the purpose of recovering this property."

"It has long been in abeyance, and latent of a peculiar character, required to advise first, and then to get, or obtaining of the same by the heirs."

"We may probably, of our leisure, furnish a pedigree of this family, and show who really is the party entitled to it."

(C) So far as we can learn, the proposal of Mr. Morrison to have a new paper at Indianapolis, professing to be democratic, meets no favor with the democratic press. His honesty is doubted by those who know him, and those who do not have been sufficiently enlightened by the State Sentinel's exposure of his movements, to distrust his motives. The mere fact of his endeavoring a paper, and calling it democratic, we care but little about; but as friends of Gen. Chase, we must protest against having him sacrificed by having his name paraded at the most head of so suspicious a craft's the proposed new paper. The General's friends ought, if possible, to prevent this. If they do not his prospects are for ever blighted in Indiana.

Mexico.—We hear nothing further since our last from Mexico. The New Orleans papers contain accounts of the movements of our troops. The Union says:—We were not advised that the Executive had received any despatches by the Am. Louisi.—arrived at New York with Vera Cruz dates of the 3d inst., and from the capital of the 30th ult.—inter alia they had previously received accounts from the capital to date as the 20th July.

Gen. Taylor, with his command, had left the neighborhood of St. Joseph's, and established himself at San Patricio.

We learn from the "Union," that San Patricio, the point at which the troops are now posted, is the site of a deserted Mexican mission,² and previous to the Texian revolution, it contained several hundred inhabitants, but for the last three or four years there has scarcely been a dozen persons living in the place. It is situated on the east bank of the Nueces, about twenty-five miles above the mouth of the river.

Provo Corpus Christi.—Letters are received from an officer with the army under Gen. Taylor, dated Corpus Christi, August 16. The troops had left St. Joseph's island, and were encamped on the main land—all in good health and fine spirits—no enemy near—or expected. A courier had been despatched to Matamoras and returned, who reported 1000 men at least there that place.

Vera Cruz, Aug. 2.—Our latest dated from Mexico are to the 30th ult. The Mexican troops are ordered to proceed for the North, and take up a position ten leagues in advance of Rio Bravo. So we might shortly expect to hear of hostilities having commenced in that part.

Mexico, July 26.—Our political relations with your country, I regret to say, are assuming an unpleasant aspect, and the cry for war is universal. It has not been formally declared, owing, I believe, to the solicitude of the French and English Ministers, who are desirous, if possible, of averting so dire a calamity.

ELECTION RETURNS—1845.
OFFICIAL.
SECRETARY OF STATE'S OFFICE.
Indianapolis, August 15, 1845.

To the Editors of the Indiana State Sentinel:—Sir:—In pursuance of my law, I furnish for publication, a list of the official returns of the election for Representatives in Congress.

I am, very respectfully, yours ob't. serv't,
JOHN D. THOMPSON.

Revised of Deputies.—The Secretary of the Treasury has removed the public deputies from the Bank of Webster.

Michigan Democratic State Convention.—At a Democratic State Convention held at Jackson, Michigan, on the 21st ult., Alpheus Peleg of Washtenaw was nominated candidate for Governor, and Wm. L. Greely of Lenawee, for Lieutenant Governor. Mr. Peleg is a stirring democrat, and has always steadily opposed the wounding operations in that state; he is decidedly popular with his party, and will, as we suppose, be elected.

Birth in the Abitur Cant.—Owing to a sudden rise of water, caused by a violent rain storm, a vessel under the command of Hamil on her way, carrying with it about 80 feet of the iron path, and at the same time another large vessel about two miles apart, Hamil was swept out, with a large amount of equipment. S. Foster, Esq., in a letter to the Collector of Cincinnati, dated the 1st instant, states that he has 100 men employed repairing the damage, and is determined to have boats pass within ten days from that time. It intends placing a temporary trunk or aqueduct across the two mile creek, and rebuilding the cut-off at high tide after navigation is resumed.

Murder of a Student at a Military School.—On the 21st ult., a regiment of militia being mustered for military duty and encampment at Burton, Geauga county, Ohio, a gang of rascals who have made themselves notorious in that neighborhood, and who style themselves "the Hellfire Insurance Company," disturbed the camp-ground, and shot down, and shot up the remains of the party of Old Hawkers in the same sordid role. They have long been an incubus on our party, and deserve no favor.

MISS PAUL'S FASHIONABLE
MILNERY, BERRY STREET,
Opposite the Market
House, Port Wayne, Indiana.

MISS PAUL respectfully informs the
townspeople of her late mother, that she
has left Port Wayne, Indiana, that she formerly
occupied by Mr. R. Rankin, opposite the
Market house, where she will be happy to re-
ceive the calls of their old friends.

She will turn, clean and stir Straw and
Linen Hats and Bonnets in the next few days.
Having a Patent Bonnet Press she can do
any thing in hats, bonnets, etc.

Any person desirous of my services, that
nothing could be done by medical aid, if the
conscientious doctor was not sufficient to throw
off the disease.

It was now reduced to a certainty, that INSTANT
MURKIN THE LANDS was rapidly sinking
and perishing, and my life in a very
short time, was in the highest degree probable.

My physicians, meanwhile, paid the strictest
attention to me, and did all for my power failing.

But with all their skill, they could
not reach the seat of disease, after the lungs
had been affected. I was visited during this
time by at least twenty physicians.

From this opening there frequently passed a
quantity of air, supposed to issue from the lungs.
During all this time my sufferings were almost
insufferable.

My physicians, meanwhile, paid the strictest
attention to me, and did all for my power failing.
